822 Heat & Air Expands Commercial HVAC Services with Enhanced Air Conditioning Installation and Repair Capabilities

July 31, 2026

Benbrook, TX - July 31, 2026 -
822 Heat & Air, a licensed HVAC contractor serving the greater Dallas-Fort Worth metroplex, announces the expansion of its commercial HVAC installation and repair services to meet growing demand from businesses throughout Burleson and surrounding communities. The company has enhanced its service capabilities to provide comprehensive heating and cooling solutions for both large-scale commercial facilities and residential properties.

The expansion comes as businesses across North Texas seek reliable HVAC partners capable of handling complex commercial installations while maintaining the flexibility to address emergency repair needs. 822 Heat & Air now offers expanded commercial services including complete system installations, routine maintenance programs, and emergency repair response for commercial properties of all sizes.

"Commercial properties require HVAC solutions that go beyond standard residential systems," said David,

spokesperson for 822 Heat & Air. "Our expanded services address the unique challenges of commercial spaces, from warehouses and retail locations to office buildings and industrial facilities. We understand that downtime affects business operations, which is why we have structured our services to provide both preventive maintenance and rapid response for air conditioner repair needs."

The company's licensed and insured technicians handle all aspects of commercial HVAC service, from initial system design and installation to ongoing maintenance and repairs. Services include condenser and coil servicing, refrigerant recharging, complete system replacements, and comprehensive ductwork installation and repair. The expansion allows the company to serve as a single-source provider for businesses seeking reliable heating and cooling burleson area services.

Beyond commercial services, 822 Heat & Air continues to serve residential customers throughout the DFW metroplex with complete HVAC solutions. The company provides clear, upfront assessments and itemized quotes for all services, helping property owners make informed decisions about their heating and cooling systems. Whether addressing aging equipment, complete system failures, or routine maintenance needs, the company's technicians deliver professional service backed by proper licensing and insurance.

The expanded service capabilities position 822 Heat & Air among the leading air conditioning companies in the region, serving communities including Crowley, Benbrook, Granbury, Joshua, Godley, Cleburne, Alvarado, Fort Worth, Arlington, and Dallas. The company offers financing options subject to credit approval, making system upgrades and replacements accessible for qualifying customers.

822 Heat & Air specializes in complete HVAC installation, repair, and maintenance services for commercial and residential properties throughout the Dallas-Fort Worth metroplex. The company employs licensed HVAC technicians trained in the latest industry techniques and technologies. Based in Crowley, Texas, and holding license TACLA65080C, the company provides comprehensive heating, ventilation, and air conditioning services including emergency repairs, routine maintenance, system installations, and ductwork services. The company serves multiple communities across North Texas, offering professional HVAC solutions designed to maintain comfortable and energy-efficient indoor environments year-round.
